Welcome to your copy of our **Spring Catalogue.**

We are excited to bring to you a fabulous new range of pond products to check out - clever items that will enable you to maximise enjoyment of your water garden this season.

Thank you for your continued custom during tough economic times - it is greatly appreciated.

Director, Founder & Proud Pondkeeper
Stephen Armstrong

S. Armstrong

Your feedback is greatly appreciated. We now have over **3750 products** reviewed & rated on our website. This helps newcomers to the hobby to decide what to buy and lets us know what products to keep in our range. Also, your comments regarding your buying experience with us help us to maintain a high level of service.

Over **29,000** customer reviews now shared online. We recently received a Platinum Trusted Service 2023 award. Awarded for achieving Gold Trusted Service for the past three consecutive years.

Pond Building Guide - Preform Ponds

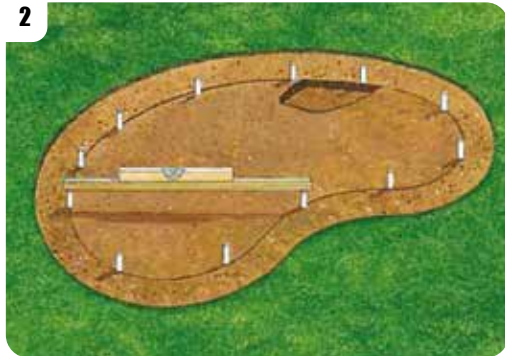

Filbert Frog's Top Tip

Pre-formed ponds must have good all-round support. Be sure to tamp and compress the sand or soil between the hole and sides of the pond.

1 Place the pond in position and carefully mark out its shape with stakes. Don't turn the pond upside down to mark out the shape, as this gives a mirror image of the pond and will not match up.

2 Position the pond right side up in the exact place you want it and use it as a guide or template while digging around the stakes. Make your outline 4-6 inches (10-15cm) larger than the pond itself. Verify the first level and start digging down to the shelves.

3 Reposition the pond, mark out the inner deeper section and continue digging out to the bottom. Be sure that the hole is slightly deeper than the actual depth of the preformed pond and verify that the pond is level. Remove any loose objects from the hole and add about 2" (5cm) of sand or fine soil to the base level and shelves.

4 Position the pre-formed pond into the excavation and verify it is level. Back-fill any spaces with sand or soil. Fill with water and leave to settle for at least a week before finishing off with your choice of edging.

Pond Tanks

Preformed Ponds - Buried Only

Preformed ponds are the easiest and quickest way to create a garden pond.

- Predetermined shape and depth
- No worries about creased material
- Ideal for poor soil conditions

PondXpert Preformed Ponds

A new range of durable ponds manufactured from high density polyethylene. Black colour finish and Lifetime Guarantee on all ponds. Models 2 and 3 have a smooth finish whereas the rest of the range are textured. (Note: dimensions include a 5cm Lip/overhang (11cm on 'Goldfish', 8cm on 'Koi').

**Textured ponds only*

Raised Ponds

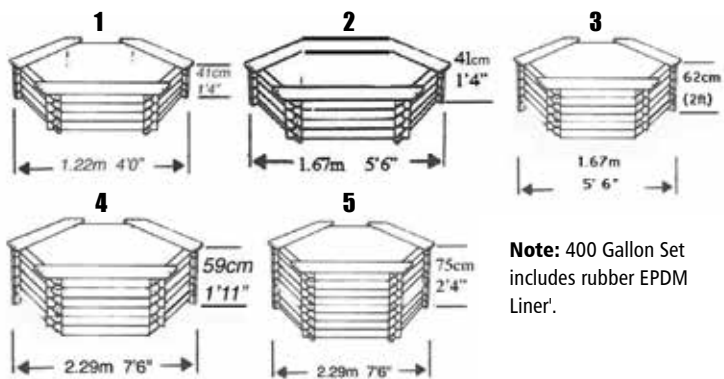

Instalog 175 Gallon Shown

Instalog Wooden Ponds

These pools are all based on an extremely easy to assemble system of interlocking "logs" which slot together and build up in layers thus doing away with the need for specialist fixings.

They are all simple to assemble and disassemble, so you can move them to another part of the garden or patio.

Note: 400 Gallon Set includes rubber EPDM Liner.

Pond Fun Features

PondXpert ViewTube Fish Towers

Watch in wonder as your fish magically appear and swim above your pond surface.

Made out of clear acrylic the Tower stands 65cm high (40cm tube + 30cm stand) with a diameter of 20cm

Fish will be attracted by warmer water inside tube or food can be added as an incentive.

Designed for small/medium fish. Not suitable for mature koi.

RRP £139.99 **Our Price £69.99**

Installation Notes

Metal stand must be placed on a stable flat surface. You will need to get into your pond and completely submerge the tower underwater before using a 'tilt and lift' motion to position it on its stand with base of tower still under the water.

Alternatively if you have a pond vacuum this can be used to suck the air out of the dome and it will automatically fill with water.

PondXpert ViewTube Large

Wider tower allows big fish to enjoy the view!

50% larger diameter column (30cm vs 20cm).

RRP £199.99 **Our Price £99.99**

Velda Koi Dome

3D 'fish viewer' that floats on the surface of your pond.

Medium 35cm Dome RRP £139.99 Our Price £129.99

ShedShield EPDM

Shed Roof Kits

PondKeeper has been a rubber sheet specialist for nearly 20 years. Now we are offering you the chance to waterproof your garden buildings as well as your pond!

As a volume buyer of rubber lining we are able to buy in bulk direct from the factory. This enables us to pass onto you highly competitive Roof Kit deals.

Perfect For

- Sheds & Summerhouses
- Office Rooms & Cabins
- Play houses & storage

NEW

* Savings based against post-promotion pricing

Each Kit includes:

- Rubber EPDM single sheet 0.8mm
- EPDM Mastic 310ml
- Water Based Deck Adhesive 2.5L
- Roller applicator
- Installation instructions

Each EPDM Sheet includes 30cm of spare material on the length and width and can be easily trimmed to final size with scissors.

Note: Rubber roofing sheets include factory welded seams universally typical of the vulcanising process.

Shed Size Imperial	Shed Size Metric	EPDM Liner Size	Standard Price	OFFER PRICE	You Save
6 x 4ft	1.83 x 1.22	2.1 x 1.7m	£63.60	£53.00	£10.60
7 x 5ft	2.13 x 1.52	2.5 x 2.0m	£80.40	£67.00	£13.40
8 x 6ft	2.44 x 1.83	3.0 x 2.5m	£106.80	£89.00	£17.80
10 x 6ft	3.05 x 1.83	3.5 x 2.5m	£118.80	£99.00	£19.80
10 x 8ft	3.05 x 2.44	3.5 x 3.0m	£137.99	£115.00	£22.99
12 x 10ft	3.66 x 3.05	4.0 x 3.5m	£172.80	£144.00	£28.80
14 x 8ft	4.27 x 2.44	5.0 x 3.0m	£187.20	£156.00	£31.20

EPDM rubber is a superior roofing material compared to shed felt

Bitumen Roofing Felt

Affordable roofing supplied with many outbuildings in the UK. Joined on-site. Low-cost benefits are unfortunately outweighed by lower performance and higher maintenance levels. Felt is not UV protected so will degrade quite quickly. Around 5 years lifespan is typical.

EPDM Waterproofing Membrane

Supplied as a single sheet.
Guaranteed for 20 years - 50 year+ expectancy
UV Stable
Maintenance free
Tear resistant.

PondKeeper Pond Liner Build Project

We built our pond using an EasyPond 30,000 Complete Kit. We then finished the pond with PondXpert Stone Liner and underwater lights.

1 For a big pond like ours we recommend hiring a mini excavator. Hire by the day or weekend - great fun!

2 Finishing the dig by hand - digging out shelves and smoothing the surface. Get rid of as many stones as you can.

3 Due to the very stony nature of the ground we chose to upgrade to Fleece Underlay (Dog optional!)

4 Once the liner has been unfolded it's time to smooth it into the shelves and corners as best you can (barefoot is best).

5 Fill pond with water. We filled ours straight from the mains via a hosepipe.

6 Weigh liner edges down then smooth away folds as water starts to fill the pond.

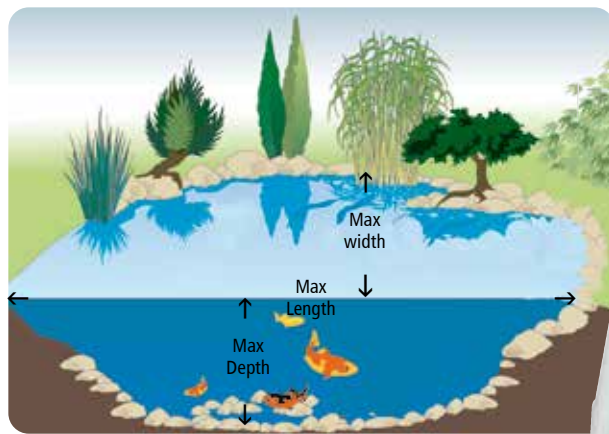

Pond Liners

All ponds start by digging a hole in the earth and then lining it before filling with water. A liner is essential as it creates a watertight barrier to stop the water seeping back into the earth.

We are a pond liner specialist and we want to guide you into making the correct choice.

Our 'ready reckoner' in the first column of our liner listings (overleaf) shows the resulting pond that can be created by the many pre-cut sizes we have in stock.

With flexible liners the choice of pond shape and depth are up to you. If keeping fish we recommend at least part of the pond to be 1m deep for fish to overwinter.

Calculating your liner size

Length =
max. pond length + (depth x 2) + 1m overlap

Width =
max. pond width + (depth x 2) + 1m overlap

PondXpert EPDM Bonding Mastic 310ml

Use to bond rubber liners.

Our Price £14.99
Cartridge Gun £7.99
Mastic + Gun Set £19.99

1070 independent customer reviews for our liners 99% Average Satisfaction Rating. It's not only our liners that are watertight!

Quality Guarantee

Firestone Rubber 1.02mm Only £12.85 per sqm (£1.19 sq foot)

This EPDM geomembrane is the thickest liner we sell (1mm). New to our range, selected to compete with Butyl that is unfortunately rocketing in price.

It is straightforward to seam or repair and is guaranteed for 20 years. Uniquely this liner sizes is measured off in imperial measurements (feet).

Over 60 more sizes exist online - We can supply any of the listed widths in maximum lengths of 100' (30.5m)

Pond Liners

All successful pond projects start with a good waterproof pond liner. A pond liner provides a watertight membrane to stop pond water seeping away.

PVC Pond Liner

We have extended our range of 0.5mm and 0.3mm PVC liners this year. Thicker than LDPE but not tearproof. These are priced:

15yr guarantee Only **£4.49** per sqm (£0.42 sq foot)
30yr guarantee Only **£4.89** per sqm (£0.45 sq foot)

Half Price Underlay with 30yr PVC

Butyl rubber

First choice for professionals for many years. Lifetime guarantee (20yrs on 140sqm plus), 0.75mm thick.

Only **£12.49** per sqm (£1.16 sq foot)

Half Price Fleece Underlay

EPDM rubber

Same physical characteristics as Butyl but with significant cost savings. Lifetime guarantee (20yrs on 140sqm plus), 0.75mm thick. We find that this synthetic rubber now outsells butyl.

Only **£9.49** per sqm (£0.88 sq foot)

Half Price Fleece Underlay

Flexiliner LDPE

Our bestselling liner. Double-laminated with a reinforced core. Durable, tearproof yet light to work with. The perfect Garden pond liner.

Half-Price Underlay Offer Over 100 pre-cut sizes - See overleaf

From only **£1.99** per sqm (£0.18 sq foot)

Bestseller

Underlay

We recommend that all pond liners are underlaid as extra protection for your liner. It helps to prevent root penetration and punctures from small stones/debris. Underlay supplied matches the sqm of our liners.

"Basic" is a budget underlay, providing a good level of protection. Particularly suitable for small ponds or where sand is used as a primary barrier.

Only **£1.80** per sqm (£0.17 sq foot)

"Pond Fleece" premium underlay is a heavy 200gsm needled felt. Recommended for all ponds - particularly larger liners or stoney ground.

Only **£2.80** per sqm (£0.26 sq foot)

All in one Pumps

EasyClear - The Complete Clear & Healthy Pond Solution.

Multi-function, compact pond technology solutions specially designed for smaller ponds. The traditional pond system includes a pump, UVC and external filter as separate but intertwined units. The thinking behind these new products is to combine all three of these essential items in one compact, submerged unit.

The benefits of this idea are:

- Easy no-fuss installation
- Completely hidden under the water surface - no conspicuous filter boxes, hoses or multiple electrical cable
- Just connect item to electrics, place underwater, switch on... and that's it!

Specification

Fountain Pumps

For many an attractive fountain has come to symbolise all that is good about the perfect water garden. From the aesthetically pleasing view of an ever-changing water display to the relaxing patter of falling droplets.

A fountain pumps offers you all of this and more! Your pond and it's inhabitants will thank you too as the moving water helps to aerate the pond by increasing oxygen levels. Most fountains can do more than one job. For instance part of the water flow can be diverted to create a stream or waterfall.

They can even be used to power a filtration system - especially the 'hybrid' fountain pumps which can handle solids. Consider the fountain pump to be the star on top of the christmas tree.

Your pond is not complete without one . . .

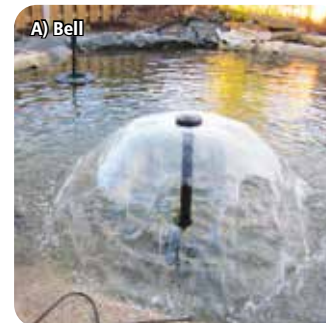

PondXpert Fountainsia Pumps

Comprehensive range of fountain pumps offering top features and best value for money.

- Dual Flow Control via sturdy 'T' Piece.
- 1 year guarantee.
- 10m power cable (33 feet).

FISH MATE

Cascade Pump

The Cascade falls under the well-known Hozelock brand. Like all of this group's water gardening products it offers a high level of quality at a competitive price.

The cascade pump is an ideal all purpose pump for small to medium displays, fountains, waterfalls or ornaments.

All pumps have a double outlet meaning you can run two features from one pump. eg, a waterfall and fountain and the flow to each can be controlled independently. 3 year guarantee up to 3 fountainheads (as shown).

Fountain/Filter Pump Hybrid

Front nozzle allows easy cleaning by garden hose

PondXpert Flowmaster Pond Pump

At last a genuine solids-handling pump that can double as fountain pump when required. By removing the secondary (internal) strainer cage (supplied with 3500 & 4500 models only) the tough impellor can handle solids up to 5mm large. Simply reattach the internal strainer to utilise the fountain attachment. *Simple but brilliant idea!*

A genuine fountain pump

A genuine filter pump

Tough impellor handles solids with ease! In our test pond the Flowmaster has worked continuously for 3 years so far. Evidence of the solids dealt with can be seen below in the 'before' and 'after' pics of our test bay.

Model	Max Flow LPH	Flow @ 1m	Hose	Watts	RRP	OUR PRICE

 Max Flow: 3000LPH
 Max Power: 50W.

Three hoesetails supplied 20mm, 25mm, 32mm.

Optional control unit housing 18-21V Battery.

Solar - UVC

Those clever engineers at PondXpert have come up with a new pond product we believe is a world first! A solar powered ultra-violet clarifier to stop pond water going green.

This technological breakthrough means that 'wire-free' water gardening becomes a reality!

Panel Power: 3W
UV Bulb Power: 5W
Panel Lead Length: 5m
Inlet size: 12mm
Battery: Lithium

EXCLUSIVE **NEW**

Note: Solar UVC needs to be paired with a pump to push water past the UVC bulb. This pump power should be 400 to 1000LPH in flow strength.

PondXpert Solar UVC 5W

The Solar UVC is designed to illuminate for two hours per day. Simply set once then the onboard memory will ensure this same start time is selected daily. The Clarifier unit itself is submersible and designed to be placed underwater with the Panel positioned dry/pond-side. The 5 Watt UVC bulb is powered by the sun with excess solar energy stored in the lithium battery.

RRP £159.99 **Our Price £79.99**

Solar - Filter

Most solar pond pumps are designed to create a fountain - if the fountain is disconnected and hose attached to the outlet the water can be fed to a different use (eg, small waterfall, pondside spitter or UVC). BUT Solar pumps tend to be small and light in weight and their small impellers that can get clogged with dirt very easily. Without protection we've found they aren't really suitable at producing a reliable flow for a pond.

To use a solar pump for this alternative non-fountain use it is strongly advised that an underwater filter be used. This holds the pump steady in upright position and collects dirt and debris before they reach the pump.

Model	Pond Size Lts	UV Watts	RRP	OUR PRICE
EcoFilter 2000	2000	0	£79.99	£39.99
EcoFilter 4000	4000	0	£99.99	£49.99

Both the above filters need the addition of ballast to keep them submerged. (eg, **Gravel £6.99** or **Zeolite £16.99**).

PondXpert Solar Filter Box (TripleAction)

The filter box used in the PondXpert TripleAction Solar pumps is available for separate purchase. It is similar in design and size to the PondXpert Eco-Filter 2000 shown above but comes complete with gravel and biomedica (biological cleaning and ballast). Suitable for all solar pumps.

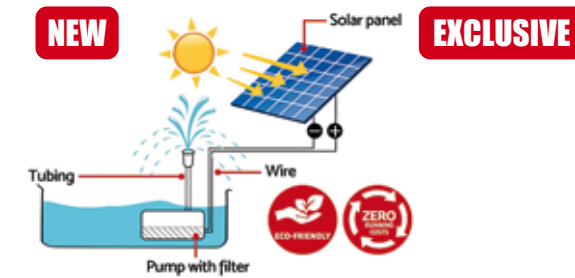

RRP £99.99 **Our Price £49.99**

Solar All-in-One Pond Filtration System

Taking advantage of the latest technological solar UVC and filtration breakthrough we are proud to be able to bring to your attention the first solar 'All-in-One' Pumps.

Now the water in a small pond can be kept clean and healthy without any mains electric wiring or running costs!

NEW **EXCLUSIVE**

Solar Powered Pumping with renewable energy

Labels: Solar panel, Tubing, Wire, Pump with filter, BIO-FRIENDLY, ZERO WASTE

'Exploded' view of filter

- ✓ Enables a pond to be positioned anywhere without need to access mains electric
- ✓ The first pond filtration system with zero running costs!
- ✓ Mains adapter included for emergency use (charging battery) during prolonged periods of poor weather.

Model	Max Pond Lts	UV Watts	Max Flow	Panel Power	Outlet Size	RRP	OUR PRICE

TripleAction Solar 1600	1600	5W	850LPH	12W	12mm	£399.99	£199.99

Note: It is possible to create your own All-in-One Solar Set by purchasing components individually but these TripleAction Sets **save you over £25** on buying items separately.

TripleAction Filtration Set Components

Garden Ponds - Energy Update

UK Electricity Costs **30% Price Drop!**

Movement is essential in a garden pond. In nature this occurs naturally in streams, rivers and lakes. To create our own 'aquatic universe' in our own properties we have to rely on electricity to create this movement.

Fortunately energy costs are on their way down. From a high of 34p this time last year to 24p from April 1st 2024. In July a further cut is forecast as wholesale electricity costs have dropped rapidly.

Example Pump Running Costs (excludes standing charge)

Pump Model	Min W	Max W	Annual Running Cost	Pump	Watts	Running Cost
VariFlow 10000	25	85	£52.56 - £178.70	TripleAction 2000	24	£50.46
VariFlow 20000	34	187	£71.48 - £393.15	TripleAction 6000	45	£94.61
VariFlow 30000	45	385	£94.61 - £809.42	TripleAction 15000	55	£115.63
VariFlow 42000	105	450	£220.75 - £946.08			
VariFlow 52000	180	600	£378.43 - £1,261.44	EasyClear 3000	25	£52.56
				EasyClear 6000	40	£84.10
				EasyClear 9000	55	£115.63
MightyMite 2000	35		£73.58			
MightyMite 3000	55		£115.63			
UltraFlow 3000	10		£21.02			
UltraFlow 5300	30		£63.07			
UltraFlow 10000	80		£168.19			
UltraFlow 20000	180		£378.43			

Pond Pump Running Costs

Your pump is the heartbeat of your pond and it is this element that is the most powerful and expensive to run. Fortunately we have already been working hard over the years on sourcing pumps with low wattage 'eco' motors. We have been also focussing and expanding our range of solar pumps that have the benefit of zero running costs.

Variable Flow Pumps

The most sophisticated variable flow pumps can have their power turned up or down as required.

Observations

The additional price premium for a pump with an 'eco' motor (UltraFlow/VariFlow) is soon paid off by savings on running costs.

Costs shown are based on running the pumps 24hrs/365 days annually. In reality pumps could be turned off during the cold season halving this cost.

PondXpert "Stumpy"

Faux Oak Seat/Shelter. Realistic oak stump - resin garden feature.

- Decorative feature
- Weather shelter for pondside electrics
- Garden seating (max weight 150kg)
- Dimensions: 38x38x47cm (LWH)

Filter Pumps

MightyMite

Not sure how these new pumps from PondXpert got their name - it could be the mighty power they generate from their compact size or it could be the mighty savings you make by choosing this pump! Perfect for smaller ponds (up to 6000 litres - 1320 gallons). Pumps can handle 4mm solids and include 10m power cable, a multi-stage hosetail and a 3 year guarantee

3yr Guarantee

Perfect 'Starter' Pump. Solids-handling with energy-efficient motor.

Model	Max Flow LPH	Flow @ 1m	Watts	Hose	RRP	OUR PRICE
MightyMite 1000	1000	300	20	12-25	£69.99	£34.99
MightyMite 1500	1500	850	25	20-32	£89.99	£44.99

MightyMite 3000	3000	2100	55	20-32	£129.99	£64.99

Simple 'tools free' access to pump inside strainer cage. Makes cleaning any blockages simple.

Three hosetails included in scope of delivery. Additional convenience as no need to cut a multistage hosetail down to maximise flow.

Perfect pump for powering pond filters and/or small waterfalls.

- ✓ **Proven reliability** - pump now ships with a 3 year guarantee
- ✓ **'1500' pump expands model range to five** - enables you to make a more refined choice to suit your needs

Filter Pumps

Hozelock Aquaforce

One of our bestselling pumps from a trusted UK brand

The Aquaforce is a reliable solids-handling pump that will work 24/7. There is a choice for every pond size and larger models (6000+) come complete with a second inlet that can be attached to a skimmer or satellite strainer cage.

- Highly economical 'eco' motor.
- Unique Wildlife Protection System: Intake holes can be reduced to 2mm to prevent tadpoles, newts and small fish getting into the cage.
- Smaller pumps (1000-4000) can handle solids up to 6mm
- Larger pumps (6000-15000) can handle solids up to 10mm
- 3 Year Guarantee

Aquaforce Satellite Strainer Cage

Pulls dirty water from a secondary area of the pond to avoid stagnant spots - attaches to 2nd inlet on models 6000 up.

RRP £71.29 **Our Price £59.99**

Filter Pumps

"Pump works great with good flow rate. Cage is very easy to open (Probably best on market) with very easy clips for maintenance purposes. Spot on!"

Customer Feefo Review July 2017

PondXpert UltraFlow

At last we have found a pump that 'ticks all the boxes'. Consider the following features:

- Ultra-low running costs.
- 'Auto-Off' function if water level drops too low.
- Choice of 10 models enables user to make a refined choice.
- Alternative inlet feature (blanked off on initial set-up).
- Alternative inlet can be attached to a skimmer or satellite strainer if required.
- Set includes 2 multi-stage hoses (25/32/38/40mm).
- Can be run submersed or 'dry' (ie, suitable for pondkeepers running a gravity-fed system).
- Designed to run 24/7, 365 days per year (handles 6mm solid particles).
- Tool-free access to pump inside filter cage (easy to access and clear out any blockages).
- Three year guarantee
- Carry handle (very useful when lifting pump out of pond)

All pumps accept hose 25 / 32 / 38 / 40mm and come complete with 10m outdoor power cable

Filbert Frog's Top Tip

Check your current pump power ratings. An old pump may have a high wattage and these are expensive to run. For instance a 'typical' 5yr old 8000lph pump could be 180W. The UltraFlow is just 70W. Running 24/7 the UltraFlow could save you £208 per year off your electricity bill*.

Pump Dimensions:

LWH: 25 x 18 x 11.5cm
Relatively compact - suits any size of pond

* Electricity costs vary - please check with your current supplier.

Filter Pumps - Variable Flow

Blagdon Amphibious IQ

This new pump from Blagdon is powered by the latest digital motor technology. Now you can see exactly how much power your pump is using and choose to turn the power up or down. This means you can lower the flow at nighttime (eg, to reduce noise from a waterfall disrupting neighbours) or increase the flow - eg, during hot weather when the pond needs more oxygen. The digital motor requires minimal power to run so you save on energy costs too!

DIGITAL MOTOR TECHNOLOGY

Digital motors convert less electrical energy to heat than conventional pump motors, saving energy. Microprocessor control and monitoring allows for a host of convenient and energy saving features for your pond or water feature.

Motor protection system
If the pump detects that the motor is clogged or jammed, it will pause and display scrolled text:
MOTOR JAMMED. CLEAN IMPELLER. CLEAN ROTOR.
When the clogging is removed the pump can safely restart.

Run dry protection system
If the pump detects it has run out of water it will pause and display scrolled text:
WATER LOW. ADD WATER.
Simply ensure there is a safe level of water and restart pump.

Flexible power usage control and display
Stop, start, increase or decrease power and flow at the push of a button for optimum performance and maximum energy saving.

Soft start
When the pump is turned on, the flow will slowly increase to its preset position. This reduces pump wear and reduces stresses on pipework and filters fitted to the system, decreasing the risk of leaks and damage.

Outlet: 20/25/32/40mm

Pond Filtration

How it works

Your pond pump is designed to suck up dirty pond water and push it to a waterfall and/or filter. Filtration is the process by which your pond is cleaned of impurities. Once the water reaches the filter it usually passes through three key stages:

1 UVC Radiation

If your filter has a built-in UV unit this exposes the water to UVC rays which cause microscopic single cell algae to flocculate (that is to stick together to form larger pieces). This action causes this suspended algae to die and fall to the bottom of the pond. This clears the water and the solid particles are sucked up by the pond pump.

2 Mechanical Filtration

Dirt such as fish waste and algae particles generated by UVC radiation are caught in physical mechanical barriers. Foams are a typical example - often with multiple grades to catch even the smallest pieces.

3 Biological Filtration

Dirt-free water then passes through a bed of bio-media. This material will often have a multi-surface appearance for healthy bacteria to stick to and thrive. Such bacteria break down ammonia into Nitrite. Nitrite is broken down into nitrate.

1

2

3

Main types of pond filters available:

Flow-through Filters (pages 54-55)

The traditional 'Box' filter sits pondside or at the top of a waterfall. Pond water is pushed into one end and returns via gravity from the other. These filters are generally larger and provide a massive area of filtration media to cope with larger ponds.

Koi & Large Capacity Filters (pages 62-65)

Pressure Filters (pages 56-61)

A more modern approach is to house the filter media into an airtight cannister. The water enters the filter under pressure and leaves it under pressure allowing the filter to be hidden. Great for smaller ponds - these filters provide maximum landscaping opportunities.

Pressurised Filters

PondXpert Filter Caps

Decorative, highly realistic rock and timber effect covers. Sandstone, Slate and stump finishes blend easily into the landscape.

Pressurised Filters

PondXpert EasyFilter

These new filters are a joy to use - simply rock the switch to the 'clean' position to backflush the filter of accumulated dirt via the special waste outlet. This dirty water can be directed to your drain or flowerbeds.

- Easy clean feature
- In-built UVC for clear water
- Gradiated foams for mechanical filtration.
- Biomedia for biological filtration.
- 30,000 was a bestseller last year now range extended to suit all sizes of garden pond.

So easy to clean... 'Rocker' handle switches from 'clean' to 'waste'.

Three inlet/outlets as found on more expensive filters. 20-40mm Inlet, Outlet & Waste (12-25mm 4500)

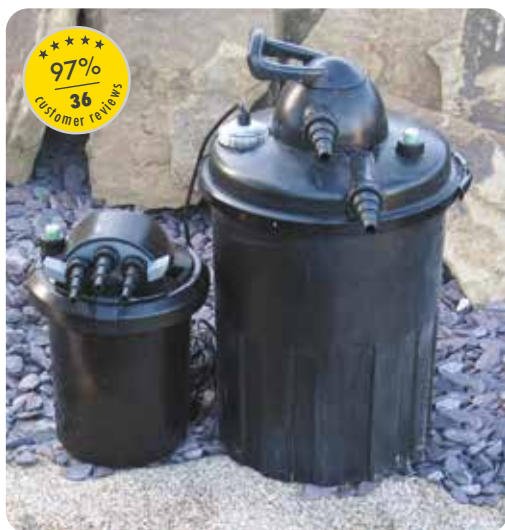

EasyFilter 20,000+

Introduced in 2010 these large pressure filters proved their reliability and were a real hit with our customers. Their large capacity mean that pondkeeper's with bigger ponds can now enjoy the benefits of pressurised filtration. The bigger filters come complete with increased features but still at a highly competitive price.

Pressurised Filters

Hozelock Bioforce was the original pressure filter. In 2015 the Bioforce Revolution launched. This revamped design completely re-engineered pond filters for the 21st Century - and our customers love it!

This clever product features the **best 'EasyClean' feature we have ever seen**. The secret to the success of this filter is its use of micro block foam filter media rather than the usual 'rings' or 'blocks'. This means the foams shed dirt and debris far more effectively.

- Powerful UVCs prevent green water
- Efficient Biological Filtration (Kaldness K3 media in bottom chamber)
- Diverter valve switches dirty unwanted water to waste outlet
- Hose Inlets 25-40mm.

Dimensions: 6000: 27 x 27 x 37cm (LWH), 9000: 27 x 27 x 46cm (LWH), 14000: 40 x 40 x 51cm (LWH),

The perfect filter upgrade
The Recommended pressure filter for koi/mixed fisheries.

Just look at our test results . . .

Fig. 1

Fig. 2

Fig. 3

We were astonished (and embarrassed!) by the amount of dirt the filter picked up. **Fig. 1** shows the discharge with **Fig. 2** showing the dirt continuing to flow. By **Fig. 3** we were ready to switch the water back to the pond. After completing this very easy cleaning regime a few times in a fortnight the positive results were clearly visible.

pondXpert

SpinClean Auto Filters

Procedure when it's time to clean:

- 1) Switch Off Pump.
- 2) Turn blue dial so arrow is facing waste outlet.
- 3) UV light turns colour red and the motor turns the cleaning paddle against the sponges.
- 4) After 3 minutes cleaning a beep indicates cleaning is finished.
- 5) Switch pump on to wash dirt away to waste.

Procedure Update - Users report that pump doesn't have to be turned off during cleaning. Turn blue dial on/off to clean!

Fish Mate Pressurised Filters - PowerClenz

Fish mate pressure filters have a strong following in the pondkeeping fraternity. The filters have been sold by us successfully for many years and continue to be a great choice. As well as the usual features such as built-in UV and long guarantee they exclusively boast patented **POWERCLENZ** cleaning technology.

When Powerclenz cleaning is utilised this 'reverse thrusts' your pump power and the pressure compresses the filter sponges by as much as 100lb per square inch.

Hey presto - your filter sponges are cleaned by the flick of a switch!

FISH MATE

Green colour and slimline lid mean the Powerclenz is inconspicuous when buried.

Hose Outlets

- 20-32mm 10000/15000

Laguna Pressure-Flo Filter & Clear-Flo Kits

These top performing pressure filters are worth a look - especially with their large UV power and unique cleaning system. When it is time to clean the filter you can utilise the unique Backwash Cleaning System where internal paddles scrape the filter foams clear of debris simply by the user pumping the handles.

- Mechanical filtration foam
- Biospheres bio-media (not 2500)
- High power UVC
- Simple backwash cleaning
- 3 year guarantee

Manufacturer delisting - Last few!!!

- Addition of 'Bio Rock' for healthier water
- Improved foams.
- Better cleaning brush handles and diverter valve (now bright yellow).

Koi Filters

Evolution Aqua EazyPod

Evolution Aqua produce the most modern pond filters on the market today. The EazyPod has been designed with small koi ponds in mind (10,000 litres - 2200 gallons) but it's superior design can also be employed on ornamental/goldfish ponds. In this less demanding environment the EazyPod can handle up to 20,000 Litres (4400 gallons)

How it works . . . Regular Running

Dirty water enters filter and is drawn to the centre of the pod. Water passes through special Kaldness filter media which traps the dirt. Dirt gets stuck in the filter media - clean water returns to pond.

How it works . . . Cleaning

Switch off pond pump. Switch on air pump to agitate the filter media. Filter media bubbles up and dirt is dislodged. Run dirt to waste - Switch pump back on.

23inches (58cm) tall and wide

New Colour Choice
All EazyPods now available in green colour finish too!

Nexus 220 & 320 Koi Filters

For larger koi ponds the Nexus Eazy 220 and 320 are proving highly popular with our customers. The concept of the vortex shape with the EazyPod is repeated but the air pump also supplies an outer chamber. This 'floating bed' is full of media and is rich in healthy bacteria to convert Ammonia and Nitrite into harmless Nitrate. The 220 can be used with koi ponds up to 18000 Ltrs (4000 gallons), the larger 320 up to 34000 Ltrs (7500 Gallons)

Dimensions (LxWxH)

SpinClean AUTO Pro 50 & 75

The first pressure filter designed with Koi-Keeping in mind. Perfect for keeping water clear & healthy in large ponds up to 75,000 Litres (Koi ponds 37,500 Litres). Supplied with X2 Biomed, a cassette of larger Biomed & filter foams.

Add a pump & save £££'s

Model	Pond Size Ltrs	UVC	X2 Media	RRP	OUR PRICE	Set Name	Pump in Kit	OUR PRICE	Save
Pro 50	50000	55W	35L	£1699.99	£849.99	Pro 50 Set	UltraFlow 16k	£919.99	£129.99
Pro 75	75000	60W	70L	£1999.99	£999.99	Pro75 Set	UltraFlow 20k	£1099.99	£129.99

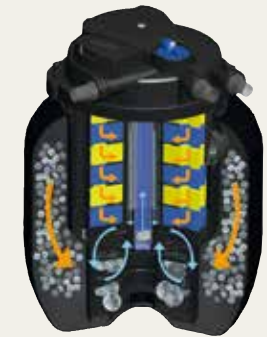

Both filters accept hose sized 25/40/50mm. 'One Touch' motorised cleaning is activated by twisting blue Control Dial on lid of unit. Chamber capacity of new 75 model is a massive 300 ltrs and pallet delivery is included.

Hand crafted extra large fibreglass chamber (volume 170 Ltrs). 226% bigger than the 40000.

Cut-away image shows internal foams and Floating Bed. Floating Bed creates a home for healthy bacteria.

Solid particles from dirty water attach to foams. Water flow then forces biomed to tumble around the extensive outer skin area.

Koi Filters

Evolution Aqua Tempest Pond Filter

Use this innovative filter for crystal clear pond water.

- Easy to install and clean
- Uses 7 litres of K+ Media (supplied)
- Filters down to 1 micron
- 2 Year Guarantee

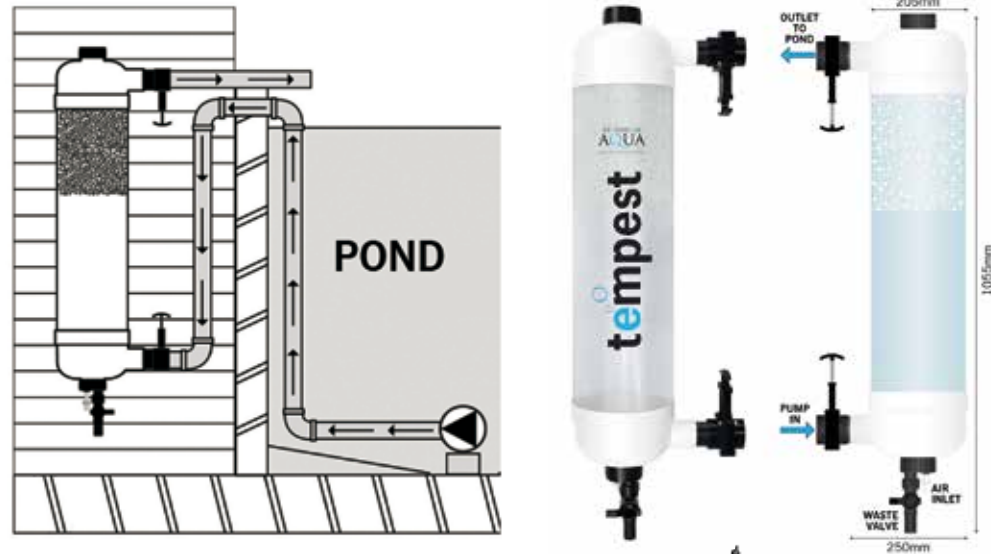

RRP £274.95 **Our Price £274.95**

Max Pond Size Lts	Inlet Pressure Pipe*	Outlet Pressure Pipe*	Drain/Waste size	Max Flow Rate	Optimum Flow Rate	Dimensions (cm)
5000	1½" (50mm)	1½" (50mm)	1"(32mm)	7500lph	5000lph	110 x 35 x 20

*To install using flexible hose instead of pressure pipe you'll need to fit a reducing sleeve (EA35050) and a 1½" solvent stepped hose tail (EAHOSE15) inside each slide valve.

Polishing Filter for removing fine particles

Professional multi-bay filters at a highly reasonable price. There is a good range of sizes with a solution to most pond requirements. Each filter box/bay comes complete with graduated foams, filter mat and bio-media. The foams sit in cassettes and are very easy to remove - simply push the sponges against the grips for easy cleaning.

Evolution Aqua Surge Filter

Introducing the new Evolution Aqua Surge Filter with 18 watt UV. The Evolution Aqua Surge Filter with 18 watt UV is an innovative polishing system for ponds that will help to deliver crystal clear, healthy water.

- All-in-one filter with 18W UVC
- "Dry hands" regime making maintenance simple

Designed to be used in conjunction with any filtration system or stand alone, the Evolution Aqua Surge Filter with 18 watt UV offers additional mechanical and biological filtration with 18 watt UV.

- Simple to install on fence post or wall
- Effectively filters up to 5000 litres

Pond Cleaning Tools

These nets are strong enough to fish a pump out of the water

PondXpert VariNet HD - Interchangeable Head Hand Net System

Extra Strong Nets - Ideal for handling big jobs around the pond

Super strong pond net with hyper-extension telescopic pole. This professional net system has a choice of heads. Max reach 3m (10') Rubberised finish and scrape bar protection on netting for long life Pole is lightweight (yet incredibly strong) - so more comfortable in use.

Image shows standard VariNet pole vs VariNet HD pole. The difference in girth is easily evident plus the HD poles come with a foam grip half way down the shaft for better grip.

Alongside the original 3m length telescopic pole there are new fixed length 1m and 0.4m poles.

- Tough Brush Head for scrubbing waterfalls and liner sides. Handy for lifting out blanket weed using a 'twirling' action too

Was £29.99 **Now £22.49**

Pole fits onto VariNet net heads. See pg 67.

Pond Vacuums - Manual/Water Pressure Pond Vacuums

PondXpert Telescopic Pond Silt Remover

Hand Operated

A simple, easy to use hand operated pump device for removing silt from the bottom of the pond.

Every pond accumulates a layer of silt and debris in the bottom of their pond no matter how hard you try to keep it clear. This can lead to problems with water clarity, pollution of the water etc and therefore should be removed frequently.

This silt vac is the ideal solution - lightweight and not powered by electricity, it can be taken to the pond, used to hand pump out the silt and stored ready for next use.

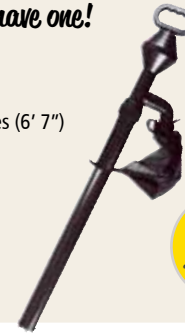

Every pond keeper should have one!

Features:

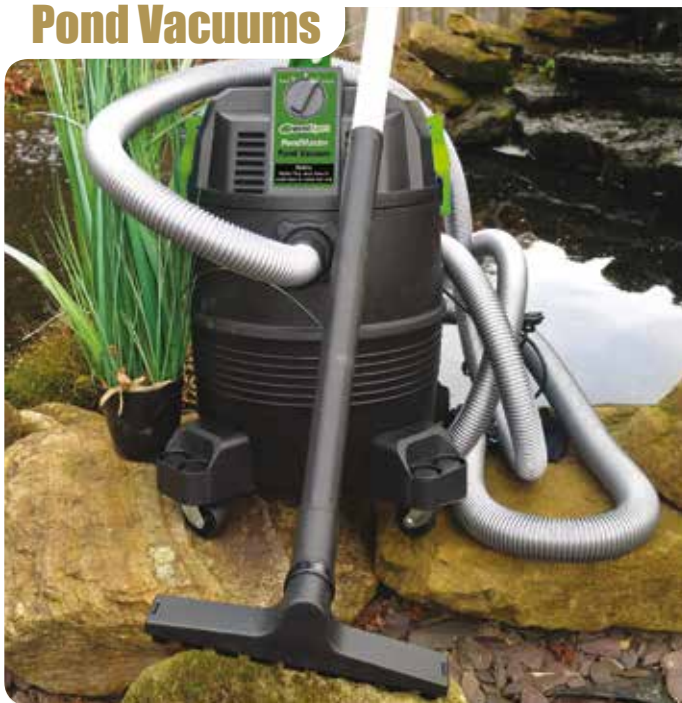

- Easy to use
- Telescopic - extends to 2 metres (6' 7")
- Also removes floating debris
- Complete with strainer bag
- Simple 'bicycle pump' action

Silt Remover

Was £49.99 **Now £39.99**

Filbert Frog's Top Tip

Your existing pond water - though sometimes dirty looking - contains healthy bacteria that keeps your pond in balance. Use of a filter basket enables pond water conservation.

Waterfall Spillways

The pumps on this page are ideal for running a waterfall.

To get the most impressive results from a waterfall we strongly recommend using a spillway.

This is positioned at the waterfall outlet and ensures a natural wider 'spread' of water than from hose alone.

This makes the water flow far more realistic to nature's own creations.

Superfish Waterfall Spillway 19cm 20, 25mm £29.99

Superfish Waterfall Spillway 44cm 25, 40mm £89.99

Both Waterfalls ship complete with filter media included.

Units can be used as rudimentary pond filters as well as spillways.

Small Fall: 25x20x25cm, **Large Fall:** 35x42x25cm (LWH)

Pond Ultraviolet Clarifiers (UVCs)

Blagdon Pro UVC

High quality UVC with big ponds in mind - power outputs range from 18 watts to 72 watts.

Multi-hosetails (20-40mm) and solvent weld 1 1/2" pipework adaptors included.

- 2 year guarantee
- Power cable length 5m

Model	Watts	Max Flow	Max Pond	Sale Price	SAVE
Pro 16200	18	8100	16200	£121.49	£13.50
Pro 21600	24	10800	21600	£139.49	£15.50
Pro 32400	36	16200	32400	£146.69	£16.30
Pro 64800	72	32400	64800	£251.99	£28

Max pond figures are for a shaded, deep pond. A sunny / shallow pond will require extra power than quoted:

- Sunny 25%
- Under 75cm depth 25%
- Koi 50%
- 8-10 watts per 1000 gall/ 4500 Ltrs.

Pond Ultraviolet Clarifiers (UVCs)

Ultra Violet Clarifier

What is an Ultra Violet Clarifier?

A UVC consists of a chamber holding an electrical lamp behind quartz glass. Water is pumped through this chamber to prevent pond water turning green.

How Does It Work?

Pond water is subjected to high levels of U.V light. This U.V. light causes the microscopic single cell algae to be clumped together allowing them to be collected and broken down by the biological filter.

Before UVC

Typical "pea soup" colour.

After UVC

Clear water lets you see what is happening below the waterline.

Don't miss **NEW Solar Powered UV** on pg 42

PondXpert Greenstop UVC

New UVC from PondXpert offers incredible value for money. All come with a set of hosetails to take 20/25/32/40mm hose. 1 year guarantee. **Complete with 8.5m power cable.**

Fibbert Frog's Top Tip

The bulb wattage should always be shown on the bulb end.

Fibbert Frog's Top Tip

Quartz Sleeves can be cleaned using distilled (white) vinegar.

Simply cover quartz with kitchen roll, drench in vinegar then leave for 2 hours or so depending on quartz condition.

Pond Ultraviolet Clarifiers (UVCs)

NEW

Evolution Aqua Titanium UVC 55W & 110W

Evolution Aqua Titanium UVC 55W

The Evolution Aqua Evo Titanium UV Clarifiers are made using the latest technology and are lined with a thick and polished titanium tube, to clear green pond water fast.

When the UV light strikes the internal surface of the titanium chamber it produces an instant photocatalytic reaction and generates Hydroxyl Radicals, a powerful oxidant, that

instantly destroys organic and inorganic matters, neutralising water-born algae, bacteria and viruses resulting in clearer water whilst being perfectly safe for all pond life.

Model	Watts	Max Flow	Max Pond	RRP	OUR PRICE
Titanium UVC 55W	55	20000	40000	£274.99	£249.99
Titanium UVC 110W	110	25000	50000	£374.99	£349.99

Clears green water faster - Up to 1.5 times more effective than a standard UV

NEW

Evolution Aqua Titanium UVC 110W

Evolution Aqua Titanium UVC 110W (cut-away view)

- Easy and cost effective to maintain - Removable, fully serviceable, showerproof control box.
- Choice of connections - Connect to rigid pipe or use hose tails to connect to flexible hose.
- Mounting brackets included.

55 watt Titanium UV Clarifier is suitable for ponds up to 55,000 litres (12,100 gallons) with an optimum flow rate of 15,000 litres per hour (3,300 gph).
The maximum flow rate is 20,000 lph (4,400 gph)

110 watt Titanium UV Clarifier is suitable for ponds up to 75,000 litres (16,500 gallons), with an optimum flow rate of 20,000 litres per hour (4,400 gph).
The maximum flow rate is 25,000 lph (5,500 gph).

UVC Bulbs & Spares

UVC Quartz Sleeves

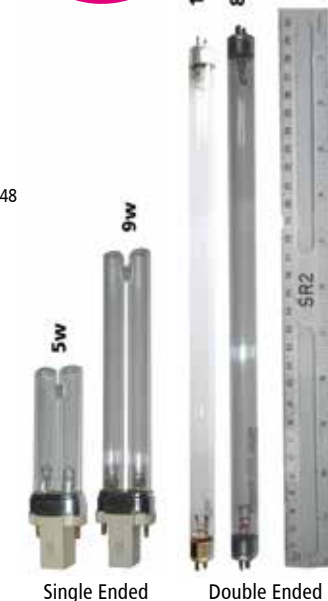

All UVC bulbs sit inside a watertight glass/quartz chamber that can get dirty over time. Quartz sleeves can be cleaned but we carry a comprehensive list of spares if required.

2 Joiner RRP £25.99 **Our Price £12.99**

Armoured Cable

£4.00 per metre

Outdoor Cable

£1.50 per metre

Air Pumps

Adding oxygen to a fishpond is very important to fish health. This is particularly true in summer months and if the pond is heavily stocked. But even in ponds without fish an air pump will help keep the water fresh - particularly if a waterfall or fountain is not present.

What Size of Pump for my pond?

We have included a table (right) as a buying guide. Many pondkeepers do not keep fish in the pond and here addition of a smaller air pump will be sufficient. Fish ponds require a larger amount of air, koi ponds especially. If keeping other 'oxygen hungry' species such as sturgeon then the flow suggested above should be amplified further. Indeed please treat this as advice as a guide only - every pond is different. Remember oxygen can be gained from pond plants, fountains and waterfalls too!

NOTE: Remember the higher the water temperature the less dissolved oxygen the water can hold.

Air Pump Sizing Guide			
Air LPH	Pond Volume (Litres)		
Output	No Fish	Fish	Koi
210	1500	1100	500

Accessories Kit contains (A) a six-tap chrome manifold, (B) four large 50mm airstones and (C) 25 metres of 4mm clear airline.

Usual selling price £26.94 **Our Price £24.99**
Promotional Price Only £12.99 when purchased with any ElectroAir Pump

Perfect Partner for ElectroAir Pumps

ElectroAir Air Pump Accessories

All ElectroAir and ElectroAir Compact pumps come complete with 4mm outlets. We now stock a full range of accessories based on this 4mm fitting (This is the most popular size and these products will fit any other brands using the size of outlet).

- (A) ElectroAir 15cm Plate Air Stone **£9.99**
- (B) ElectroAir 13cm Heavy Air Stone **£2.99**
- (C) ElectroAir Chrome Manifold 6 way **£8.99**
- (D) ElectroAir Airline 4mm x 100m Clear **£29.99**
- (E) ElectroAir Clear 4mm Airline x 25m **£9.99**
- (F) ElectroAir 2"/50mm Air Stone Blue **£0.99**
- (G) ElectroAir 2"/50mm Air Stone Sintered Grey **£1.99**
- (H) ElectroAir 4mm Check Valve **£0.49**

EA Black Sinking Hose for maximum disguise. 4mm. **£2.99** per metre

PondXpert Black Sinking Airline 25m

Black weighted airline (4mm internal diameter). Makes for a tidier pond appearance for a super low price.

RRP £59.99 **Our Price £29.99**

PondXpert Clear Airline and new Weighted Black Airline running attached to the same air pump in one of our own ponds. **The difference is striking!**

Sinking Airline does not show

Standard Airline can look unsightly

Black Airline is more discreet around the pondside.

Air Pumps

PondXpert ElectroAir Compact

Weatherproof air pumps designed for outdoor use. Durable pumps with polymer composite rubber air chamber held under aluminium casing.

- Quiet Operation
- Efficient Eco motor with low energy use
- Robust Design
- Includes all fittings to get you started
- Includes 2m (7') power cable.

Solar Air Pumps

PondXpert SolarAir 100

Max Air Output 100lph, one airstone, 1m airline, 1W Panel.

RRP £69.99

Our Price £34.99

PondXpert SolarAir 200

Max Air Output 200lph, one airstone, 1m airline, 1.4W Panel.

RRP £89.99 **Our Price £44.99**

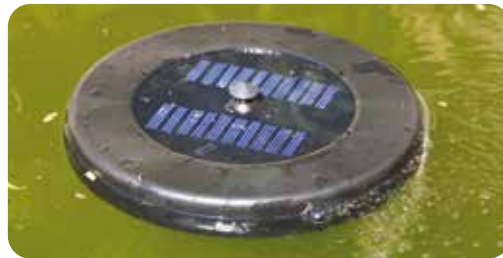

PondXpert SolarAir Float

Air pump designed to float on the surface of your pond (or can be moored pondside).

- Maximum air Output 150lph
- 0.8W solar panel
- 0.5m airline with single airstone

RRP £79.99 **Our Price £39.99**

Accessories

PondXpert SolarAir 200 PLUS Mains Adaptor Set

Use this new 6.3V mains adaptor to charge up the battery-pack supplied with the unit. Set includes an adaptor to fully charge the battery and a transformer cable so unit can be powered directly from the mains. Set is not weatherproof - charging must be indoors or a dry area. Enables air-pump to be used indoors (eg, for an aquarium).

RRP £25.99 **Our Price £12.99**

All adaptor & transformer cables **NOT** weatherproof

PondXpert Replacement Airstones

Airstones will wear out over time - don't worry as we have the replacement airstones suitable for all PondXpert models.

RRP £1.99 **Our Price £0.99**

SolarAir 150 Plus has the pump motor and battery fixed to the back of the solar panel.

Filibert Frog's Top Tip
Great space saver!

Solar Air Pumps with battery back-up

Premium Oxygenators that work day AND night

PondXpert SolarAir Float Battery

Air pump designed to float on the surface of your pond (or can be moored pondside).

- Maximum air Output 150lph
- 0.8W solar panel
- 0.5m airline with single airstone

RRP £99.99 **Our Price £49.99**

PondXpert SolarAir 150 PLUS

Solar air Pump with Lithium battery. Pump integrated into panel to save space.

Max Air Output 150lph, one airstone, 1m airline. Quality Lithium battery. 1 Watt solar panel.

RRP £99.99 **Our Price £49.99**

PondXpert SolarAir 200 PLUS

Solar air Pump with Nimh AA battery. Twin airstone. Battery can be charged by mains adaptor (available separately).

Max Air Output 200lph, two airstones, 2m airline. 1.5 Watt solar panel.

RRP £119.99 **Our Price £59.99**

SolarAir 300 Battery+

Introducing the most powerful solar air pump in our range. Includes high storage lithium battery and features three operating modes - Continuous, Intermittent and Gradient.

NEW

Premium 38mm AirStone discs

- Charge by solar panel or USB connection indoors (USB cable included)
- Power: 3.5 Watts
- Battery: 3.7v/4000mAh
- Output: 300 LPH
- Set includes 2 airstones, airline (1.2m x 2), two check valves
- Quiet operation
- Great for indoor fish tanks as well as ponds
- 2 Year Guarantee

RRP £139.99 **Our Price £69.99**

Pond Deterrents

Isn't it time to scare away those pesky herons for good?

Velda Laser Guard

Hérons are one of the hardest creatures to scare away but Velda of Holland are determined to find the answer!

The latest motion-activated deterrent utilises laser lighting, strobe effect and three different degrees of sound.

Our Price £199.99

Velda Bird Blocker Band

Reflective ribbon with ground pegs to scare away birds.

Our Price £14.99

Pond Protector - Harmless electric fence

Efficient method to keep herons and cats away from a pond. The transformer gives off a low voltage electric pulse to the fence round the pond. This shocks herons or cats and persuades them to try elsewhere. Inclusive of transformer, 10 synthetic rods, 80m of electric fence, connectors and instructions. The electric cable has a length of 80m, which is sufficient to protect 40 metres of pond side with two cables. Extension set provides an additional 40m coverage.

Pond Electric Fence Was £99.99 **Now £69.99**

Pond Electric Fence Extension Set £39.99

Protector + Extension £89.99 **SAVE £19.99**

Floating Pyramid

Floats on pond surface with reflective surface scaring off herons.

Our Price £12.99

Jet Spray Protector

Attach device to your garden hose and water will spray when movement detected.

Our Price £39.99

Velda Spinner

Spinning scarer moves in the wind.

RRP £38.99 **Our Price £29.99**

Velda Reflector

Floating mirrored sphere scarer.

RRP £26.99 **Our Price £19.99**

Replica Heron

Hérons are territorial creatures so usually avoid each other. Place this realistic replica near your pond and it should help to stop the real thing.

RRP £49.99

Our Price £24.99

Effective Floating Heron Deterrent

Here at pondkeeper herons often attack our ponds. We didn't like the spoiling effect netting created on the pond but these new Pond Protectors solved the problem in an attractive way. The protectors are supplied as floating grids that you join together and lay across exposed areas of pond perimeter. The heron can neither stand on them or poke its beak through them. *Problem gone!*

Netfloats

"New Improved Version - Anti-Algae Coating"

Made in the UK these are the original design. Finished in black they are available in two designs. The 'rings' are best for smaller ponds - the rectangular grids make installation in larger ponds easier.

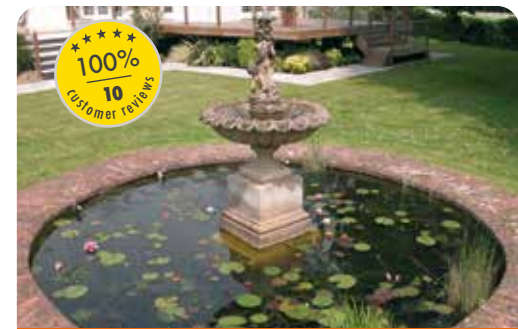

Rings 37x32cm Rectangles 38x68cm (WxL)

Each pack covers 3.5m length of pond perimeter (11' 6")

Netfloat Rings Pack of 20 £29.99

Sizing Guide:

10 rings protects 5 feet (1.52m) of shoreline

Pond Treatments - Inline Dechlorinators

In-Line Dechlorinators

As most fish-keepers know tap water is great for us humans but not so good for the fish we look after. Tap water contains chlorine and other impurities that are hazardous to fish.

It is therefore essential that these elements are removed from tap water before it is used to 'top-up' or fill a pond. An inline dechlorinator saves playing around with messy liquid treatments or waiting for chlorine to 'gas-off'.

Simply running tap water through one of these units ensures your water is pond-safe straight from the tap and one unit will be enough to decontaminate 200,000 litres of water - an amount that will take a typical Pondkeeper 2 years to get through.

Evolution Aqua Detox Dechlorinator

Hi-grade activated carbon removes chlorine, chloramine, bromine, malachite green, dyes, colours, humic acids, organics, proteins, antibiotics, hormones and ozone.

Improved in 2017 with high capacity carbon for optimum chlorine removal. Recommended flow rate: 4 litres per min.

The 12 inch high-grade activated carbon filter will treat up to 225,000 Litres / 49,493 U.K. Gallons.

The 30 inch high-grade activated carbon filter will treat up to 550,000 Litres / 122,083 U.K. Gallons. Maximum treatable water is based on incoming 0.5ppm chlorine.

12" Detox Dechlorinator In Line Filter Our Price £84.95

30" Detox Dechlorinator In Line Filter Our Price £124.95

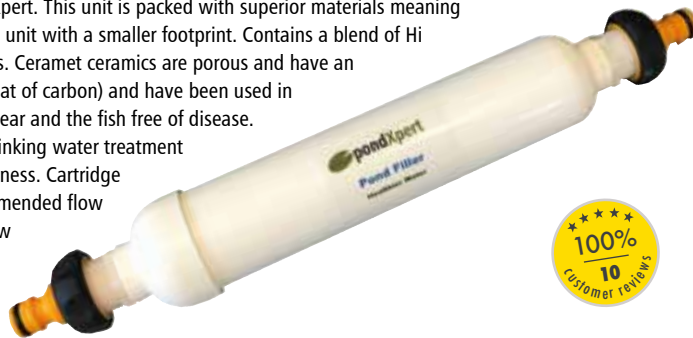

PondXpert 10" In-Line Dechlorinator

New advanced dechlorination from PondXpert. This unit is packed with superior materials meaning increased capacity can be achieved from a unit with a smaller footprint. Contains a blend of Hi Grade carbon and Ceramet active ceramics. Ceramet ceramics are porous and have an extremely large surface area (500 times that of carbon) and have been used in Japan for many years to keep Koi ponds clear and the fish free of disease.

Premium 'Hi Grade' carbon is used as a drinking water treatment illustrating its trusted quality and effectiveness. Cartridge will treat up to 150,000 litres. Max recommended flow rate 9 litres per minute (the slower the flow rate - the more impurities are removed).

RRP £139.99 **Our Price £69.99**

Pond Treatments - BlanketWeed Cures

NEW

PondHero BlanketWeed Blaster - Solar Algae Remover

String algae or blanket weed can be a real problem in late spring/summer. This new solar ioniser from PondHero tackles the problem quickly and effectively.

Float the unit on your pond and sunlight activates release of copper ions into water. Copper ions bind themselves to pond contents preventing algae growth.

!!Excess copper ions are dangerous to pond life (see 'operating advice' below)!!

Benefits

- So easy! Simply floats on your pond surface
- Clears string algae quickly
- Releases copper ions to combat algae growth
- Works in sunny weather just when algae worst
- No messy wiring or running costs
- No need to cut into existing hose pipework

Operating Advice

Not recommended for use in ponds with fish (can be used with careful monitoring). Use when pond water 12 degrees C or higher. Powerful & Effective - designed to be used for 'short blasts' in smaller ponds. Remove from action once weed is cleared.

Spares Kit

RRP £79.99

Ultra-fine digital tester. Recommended if Blaster used in fish ponds.

HC: 0 to 999 ppb, plus 6 tests

RRP £97.20 **Our Price £89.99**

Specification

- Suitable for ponds up to 35,000 Litres volume
- Set contains Blaster unit, test strips & brush
- 2W Solar Power (6v)
- Also suitable for hot tubs and swimming pools

PondHero BlanketWeed Blaster - Solar Ioniser

RRP £159.99 **Our Price £79.99**

Pond Treatments - BlanketWeed Cures

BlanketWeed is a long string algae that thrives in healthy ornamental ponds. Its growth is increased by bright sunlight and shallow fast running water so it will be found in water-falls and unshaded pond areas. Overstocked fish ponds can also contribute.

The simplest 'natural' treatment is to stock the pond with plants and animals that actively consume blanket weed or compete for the same food. Other highly successful methods include the careful use of copper ions, barley straw and pond vacuums.

Barley Straw - The Traditional method used since the middle ages

Safe to use. Not affected by recent HSE recall

PondXpert Barley Straw Essence

Effectively clears blanketweed and green water.

1000ml treats 22750Lts (5000 gal).

250ml **£8.99**
1Litre **£19.99**

PondXpert 'Throw 'n Go' Barley Balls

Biodegradable gel spheres packed with barley straw extract. Simply drop one ball per week into pond (each ball treats 5000l).

Barley Balls **£14.99**

Blagdon Barley Straw Bugs

Works like barley straw without the unsightly bales.

250ml RRP £17.99 **£15.99**
500ml RRP £32.49 **£27.49**
1ltr RRP £59.49 **£49.49**

PondXpert Twin Pack

The traditional method against blanket weed and algae. Float the net of barley straw just below the surface. Each bale treats 2250 Ltrs.

Twin Pack **£9.99**

Barley Straw Midi Bale

Larger bales for big ponds. Each log treats 13,500 Litres (3000 gallons) for 8 weeks

Midi bale RRP £29.99
Our Price **£14.99**

PondXpert Barley Flakes

Unlike traditional barley straw which sits on the pond surface these 'Flake' pouches are designed to sink to the pond bottom.

RRP £14.99
Our Price **£7.49**

Tetra AlgaFin

Effective and safe treatment for persistent blanketweed and other pond algae.

250ml (5,000) RRP £10.29 **£9.99**
500ml (10,000) RRP £17.12 **£15.99**

Fish Food

Fibert Frog's Top Tip

Only feed once a day at season end/start (5-8°C). In summer (10°C) can feed 2-3 times. Remove any uneaten food after 5 minutes.

In established pools, where there is a good balance of plants, wildlife and fish there will be plenty of natural food for your fish to feed on.

However, pond food acts as a supplement to the fishes' diet and is enjoyable for the pondkeeper.

Often ponds will be more heavily stocked and there may not be enough plant life to attract insects.

Here feeding is vital to the health of the fish. High protein foods should be fed in the summer with only low protein (eg, wheatgerm) fed in the winter.

Tetra Floating Sticks

A complete staple food for all fish. The UK's bestselling pond food.

780g	£16.99
1.2kg (10ltr bucket)	£21.99
1.68kg	£29.99

Pond Feeding Equipment

Hozelock Automatic Fish Feeder

Indispensable for holiday feeding, the Automatic Fish Feeder can be mounted on a pond wall or on the supplied stand. Operate via a single control incorporating a battery-operated clock and a frequency dial which gives a choice of up to six feeds per day. The food chamber holds up to 800ml (approx. 100g) of fish food.

RRP £184.99 **Our Price £99.99**

Fishmate Fish Feeder

Automatic fish feeder for up to 21 days. Reliable and accurate timer AA battery included.

RRP £59.90 **Our Price £49.99**

Fish Mate P7000 Pond Fish Feeder

FISH MATE

Suited to larger ponds for use with pellet or 'stick' food. Variable feed sizes are dispensed at programmed times or on demand at the touch of a button.

- 7 Litres/ 6.5lbs / 30 cup capacity dry food hopper.
- Easy to use LCD control with approximately 6 to 9 months battery life in continuous use.
- Unique feed mechanism ensures accurate and consistent feed sizes from teaspoons upwards.
- Weather-resistant
- Can be fastened to a secure base for increased stability.
- Suitable for most popular food sticks and pellets

Fishmate P7000 feeder RRP £115.23 **Our Price £84.99**

PondXpert Thermometer

Knowing the correct water temperature of your pond water is vital when to feed and add treatments. This floating thermometer gives you the information you need.

RRP £19.99 **Our Price £9.99**

PondXpert Feeding Ring

Floats on surface and allows easy removal of uneaten food & prevents food drifting around surface.

RRP £4.99 **Our Price £2.49**

Supa Vacation Block

Concentrated block of fish food that will supplement the diet of your fish for up to two weeks.

- 50 gramme block
- Protein 40%, Fat 8%, Fibre 2%, Moisture 8%

RRP £2.99 **Our Price £2.49**

Tetra Holiday Food

One block feeds 10-15 medium sized goldfish, or 2-3 medium sized koi, for 14 days. If your pond contains more fish, increase the number of blocks accordingly.

RRP £8.99 **Our Price £6.99**

Introducing

pondXpert
nutrition+ Pond Food

Nine super varieties to cover all pond fish requirements.

Seven mainline foods available in three handy sizes:

1KG Bags

4Kg Bags

10kg Bags

(Save 50% buying a 10kg bag vs 1kg).

Bestselling Food Range Improved

Food Variety	Description	Protein
Mixed Blend	Triple blend - 2 colour sticks & pellet mix	28%
Growth Pellets	4mm diameter round pellets	32%
Koi Sticks	Classic stick shaped food for koi and all fish	29%
Pond Sticks	Classic stick shaped food for all fish	27%

3 Customer reviews

PondXpert FoodFinger Pond Fish Feeder

Feeds your fish when you are not available. New Auto-Feeder with solar power. Very easy to use with full control via LCD control panel. Clever anti-clog design means regular, reliable feeding.

RRP £239.99 Was £119.99 **Our Price £99.99**

Super Features

- Rechargeable batteries powered by solar
- 6 Litre capacity accepting pellet & stick food
- Control size of feed (0 to 20 seconds)
- Control number of daily feeds (1-6)
- Control 'scatter power' (60-100%) distance

Accepts pellet & stick style food 3-10mm.

Includes 4 stake feet for optional additional stability.

(A) PondXpert FoodFinger offers powered propulsion. Food can be propelled a controllable distance (3ft to 10ft) at wider arc of 160 degrees.

- Allows multiple siting opportunities
- Fair distribution of food enabling all fish to feed

(B) Traditional 'auto-feeders' can be troublesome to position pond-side. The food drops down vertically from a chute into the water. Greedy fish can monopolise meals.

FoodFinger Mains Adaptor

FoodFinger powers its rechargeable batteries (supplied) via an integrated solar power. One charge lasts up to 3 months but an optional Mains Charger is available.

RRP £19.99 **Our Price £9.99**

Pond Side Creatures

Floating Ducklings (triple)

Set of 3 cute ducklings to complete the duck family.

1 Ducklings RRP 19.99 **£9.99**

Dimensions: LWH cm 11 x 6 x 6

2 Owl £12.99

Can be filled with sand for extra ballast or hung from tree (pierce hanging slot).

Dimensions: LWH cm 16 x 16 x 42 (6' x 6' x 1'5")

Ducks

4 Mallard Male £9.99

Pond Plants

Water gardens give the keen horticulturist an opportunity to grow a number of aquatic-friendly species.

Introducing plants to your pond is beneficial for optimising 'pond balance'.

Live Pond Plants

We are delighted to be able to offer you a top selection of plants from the UK's best aquatic nursery. Our customers love our Variety Packs of Six 9cm plants - Your Pack of 6 will be made from a selection of 13 plants. These will be chosen by the nursery pickers based on availability and quality of the plants at time of despatch (ie, what is in-season).

Water Lilies (1 ltr pot)

Spectacular flowering plant.

Red Lily **£24.99**
White Lily **£24.99**
Yellow Lily **£24.99**

Pond Plants

As well as looking beautiful aquatic plants play an important part in keeping your pond balanced. Plants absorb nutrients, reduce light levels in the water and produce oxygen. Plants also provide shelter for fish and natural material on which they might spawn.

Planting Baskets

Aquatic planting baskets have been designed with mesh to help retain the soil. A fabric liner can be used to reduce any soil leaching.

★★★★★
100%
37
Customer Reviews

3 for 2

How to choose a planting basket size.

Submersed Plants: 10cm wide or kidney shape and larger.

Bog Plants: 18-23cm wide for small bog plants, 28-36cm wide for large bog plants like Iris. Kidney shape baskets are also great for arrangements of 3-4 young bog plants.

Water Lilies: 20-25cm wide work for Dwarf lilies, but for regular lilies we recommend the XL 40cm size.

Fibbert Frog's Top Tip

Did you know a 10 litre bag of soil will fill 1 x kidney basket? In order to help you decide how much soil you need we have added a 'capacity' column next to our planting baskets. Hope this helps!

Planting Bag

Easy to use, more flexible than baskets, fit in small areas.

Pond Hose & Clips

As your pond water makes its journey from your pump to its destination - via a UVC, filter or waterfall - it needs to be constrained by a network of hose. This hose should be fixed securely to the equipment using clips - this helps prevent any chance of the hose becoming loose or leaks affecting performance. As with most things items fail due to the weakest link, that is why we only use premium hose and accessories.

PVC Pond Hose

Features:

- Smooth bore-minimal flow restriction
- Will not kink or split
- Convenient 5m lengths will suit most ponds

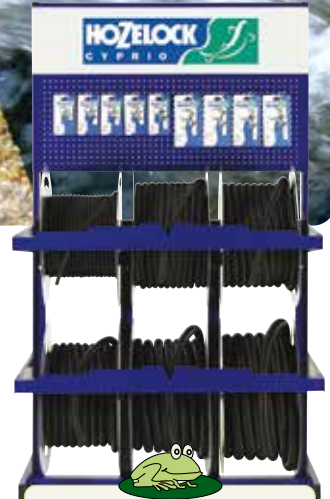

Clips

Features:

- Zinc plated, will not corrode
- Easy to tighten

Filbert Frog's Top Tip

Use the largest size of hose available for the equipment involved - this results in less frictional loss resulting in optimal performance.

Order Information

Delivery

Delivery is direct to your door from our warehouse and we aim to despatch all orders placed before 1pm on the evening of the same day. Your order will be despatched on a 24hr service and be with you the next day (anytime 8am-6pm). *A standard charge of £4.99 is made to contribute towards handling and despatch. This charge is for mainland UK only - the following areas please ring for quote first (Isle of Man, Wight & Scilly, Northern Ireland, Channel Isles plus Scottish Highland & Island postcodes (BT, AB31-38, AB40-56, HS, IV, KA27-28, KW, PA20-88, PH4-44, PH49-50, ZE).

Returns

If any item does not meet your expectations you may return it (unused) within 30 days of purchase. We will cover the cost of return for damaged or faulty goods. Please state whether you would like a refund or replacement when returning goods. Your statutory rights are not affected.

Warranties

Most of our products come with free extended manufacturer warranties. If you incur any problems during this warranty period please let us know and if the item can not be fixed we will offer a replacement no problem. Proof of purchase required
